

Earth Jagua® Instructions

Using a pen, push contents of Base Gel pack toward tip.

Using scissors, make a cut at tip of pack.

Open plastic cone, place in a cup. Squeeze Base Gel into cone.

Using dropper, fill bottle with water to top of sticker.

Shake until dissolved. Pour contents of bottle into plastic cone.

Re-seal cone. Massage contents of cone until smooth.

Using a pen, push gel toward tip.

Using scissors, make a small cut at tip of cone.

Slowly squeeze Jagua Gel into bottle. Occasionally tap bottle on counter to settle gel at bottom.

Twist on cap outfitted with fine tip onto applicator bottle. You're ready to create your design!

See stencil transfer instructions on reverse side.

Wet skin with water.

Place stencil face down.

Hold in place for 30 seconds.

Remove stencil.

Slowly trace stencil outline with Earth Jagua® Gel by gently squeezing applicator bottle.

Drying will take 30-40 minutes, depending on design. Be careful not to smudge!

Once dry, gel will be flat and stick to skin. Wait 2 hours before removing with warm running water.

You will see very little color when you remove the gel; this is normal.

Wait 24-48 hours for blue-black color to develop. Enjoy!

Remove protective tissue.

Trace stencil on top of Master Sheet.

Stencil will transfer to reverse side of Master Sheet.

Cut design from sheet to apply to skin.

Important Notes

- Follow visual instructions on reverse side.
- YOU WILL SEE VERY LITTLE COLOR WHEN YOU REMOVE THE GEL. THIS IS NORMAL!
- Color will fully develop in 24–48 hours.
- Remove Earth Jagua® Gel before going to bed.
- **For first night only**, wrap or cover the area with bathroom tissue and tape to avoid staining sheets or other areas of your body with which it may come in contact.
- Jagua stains very quickly. Wipe off all smudges immediately.

Health Recommendations

Earth Jagua® Gel is safe and all-natural. However, allergic reactions to natural products can occur (think strawberries or peanuts). For your safety, please follow these recommended guidelines:

- Before using Earth Jagua® Gel, test product on small area first. Place a small amount of product on the skin; leave on for 2–3 hours and rinse off with water. Wait 4–5 hours before proceeding.
- If you are taking any medications, or have known allergies, check with your doctor before using Earth Jagua® Gel.
- Earth Jagua® is a strong dye. We recommend waiting until tattoo completely disappears before making a second application on the same spot.
- For external use only.
- Avoid contact with eyes. If this happens, flush with water.
- We do not recommend using jagua on the face.

Ingredients: Genipa americana, Water, Isopropyl alcohol, Sodium citrate, Xanthan gum, Citric acid, Silica dioxide, Potassium sorbate, Disodium EDTA.

Earth Jagua® Fact Sheet

- Earth Jagua® does not contain PPD or any other toxic chemicals.
- Earth Jagua® is not “black henna,” nor does it contain henna.
- Jagua tattoos fade naturally in 10 days to two weeks. There is no quick way to remove a jagua tattoo. Excessive rubbing or use of harsh products won’t work. If early removal is necessary, wipe design with baby oil several times a day.
- Earth Jagua® shows up perfectly on dark skin.
- Earth Jagua® Gel lasts 2–3 months when refrigerated.

Stencil Transfer Instructions

How To Use 4-part Thermal Stencil Transfer Paper

1. Place on flat surface, yellow side down.
2. Remove protective tissue (2nd sheet).
3. Cut design from stencil sheet, place design face-up on top of Master Sheet (1st sheet).
4. Trace over design with pencil or pen (this transfers design onto reverse side of Master sheet).
5. Cut design from Master Sheet.
6. Continue following visual instructions on reverse side.

Please note: You may use rubbing alcohol to remove any stencil residue from completed tattoo!

Handy Tips When Using Earth Jagua®

- Start with clean, dry skin. Remove any lotion.
- When creating tattoo, use toothpicks to even out lines.
- To avoid clogging, soak metal tip in hot water after use.
- Before storing, squeeze air out of the bottle and twist cap on.

To Make your Tattoo Last as Long as Possible:

- Avoid saunas and steam rooms; or you can cover the tattoo with vaseline.
- Avoid skin scrubs and exfoliation products.
- Wash and dry tattoo area gently when showering.
